「刃牙」 The Baki Journal

By Ichido Reichan

Baki journal book 10

A long two weeks, I know, but finally after managing translators and sponsor donations and at the same time working non stop in book 10, here you have it.. The first volume for the sponsors of the wild fang Project finally I will stop dedicating the Baki journal to ask for help and threaten to make the series private (which it is now) and focus in interesting details and Baki stuff that can be discussed here.

Okay, in the news, THE SPONSORING FOR BAKI SOTH IS COMPLETE. Thanks, thanks to all of you that donated and stood up when we most needed you, now we have a team of 7 translators that are already working from all around the world (Russia, USA, Italy, Japan, Philippines) and every two weeks we will be receiving more and more translations of the books

One translator in special, Mr. Alex Smith, agreed in translating an exclusive interview to Itagaki Keisuke on his experience creating Baki, this Interview will come in small pieces between volumes and there is one confirmed on Book 11, so everybody give him a big cheer for his kindness

I always wanted to dedicate the Baki Journal to discuss interesting details about the series and create discussion about it, the topic of this week... " The knowledge of the characters about other languages" and "The Real Oliva, he really Exist!!"

Questions? topics? wanna voice your ideas for your sponsored volume? write us at rtkfanservice@yahoo.com

In this volume you noticed Sikorsky speaking a weird version of English that make him sound ridiculously funny, the fact is he is not speaking English at all, he is speaking broken Japanese and since we are speaking English right now, you can understand the Characters well because they are fluent on the languages they know, you will notice that he speaks fluently English, Russian and a number of European languages

Baki speaks fluently 3 languages, English, Japanese and Portuguese with an Accent, when Baki was young, he traveled and trained with Yuujiro for more than 6 years, and Yuujiro speaks English and Japanese to him, which made him be Native in two languages. Yuri Tchaikovsky for example, could not speak Japanese, but he talks to Baki in English also Captain Strydum only speaks English, Baki learned Portuguese while living for 2 years in Brazil (One of our sponsors is Brazilian!!)

Hanayama Kaoru speaks English too, Retsu Kaiou speaks five different languages since they rigorously train with the Shaolin monks and they study hard nowadays all sorts of languages, Retsu is fluent in 7 different languages, English, Cantonese, mandarin, Japanese, Hindi, Thai and Taiwanese, besides a number of other dialects, note that the Asian languages he speaks have direct connection to Buddhism, Jack Hammer speaks English, Japanese and French, Orochi can hardly speak English, but again, the most proficient in languages here is none other than... Hanma Yuujiro

Yuujiro has been traveling around the world since he was 16, and after got hired as "soldier of fortune" by the USA, he uses his raw ability to absorb knowledge like one drinks water, he is a genius and he knows that "Knowledge is power" so being the strongest creature he also surpasses the mental learning capacity of all the rest of the creatures, he knows almost 20 languages and 40 dialects and an intimate detail about the human booy that makes him deadly, he knows when he fights to kill or just to make the other fighter suffer and observe his pain for delight, he is well versed in history, laws and using this genius mind, he dedicate it to the only thing that interest him the most... The martial arts

What do you think about this? Being multilingual is the best way to achieve the secrets and mysteries about the different countries fighting arts

Oliva really exist!! He is based on a legendary bodybuilder called Sergio Oliva "The myth" he once won the famous Mr Olympia competition uncontested (He just walked on it and won, that easy...)
and in a fearless attempt to contact him, I sneaked on his homepage www.sergioliva.com, and called the number there, I couldn't speak with him, but I spoke with his manager, they live in USA and he is promoting his book about his life, nor Mr Oliva or his manager knew that he was such an important character from a comic book in japan!! the manager got mad and told me nobody asked them permission to depict Oliva in a comic book and sounded like he wanted to sue, but I told them he was the "inspiration for Biscuit Oliva" but again, my wish was negated, I couldn't speak with him at all, mostly these days, Mr Oliva is traveling around the country and promoting his book so the manager just told me to check his homepage for future presentations, so if any of you can meet him, good luck, there is a phone number there, so call him and tell him that his comic book rocks!!!

Okay, thats it for today, many thanks to all of you and from now on, the Baki Journal will be dedicated to inform you about interesting topics and news from japan
Last Chapter of Baki son of ogre in japan is Chapter 61 (belongs to future book 8) and Baki has a long way to go in advancing the core of the story.

Baki Journal next Volume will be dedicated to the first part of the interview with Itagaki San and his question is " Which character touched you the most" and you will be surprised with his answer...

So long, The strong is the beautiful...
